

Q3 FY26

Investor Release

January 12, 2026

Noida, India

Safe Harbor Statement

Certain statements in this release are forward-looking statements, which involve a number of risks, uncertainties, assumptions and other factors that could cause actual results to differ materially from those in such forward-looking statements. All statements, other than statements of historical fact are statements that could be deemed forward looking statements, including but not limited to the statements containing the words 'planned', 'expects', 'believes', 'strategy', 'opportunity', 'anticipates', 'hopes' or other similar words. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding impact of pending regulatory proceedings, fluctuations in earnings, our ability to manage growth, intense competition in IT services, Business Process Outsourcing and consulting services including those factors which may affect our cost advantage, wage increases in India, customer acceptances of our services, products and fee structures, our ability to attract and retain highly skilled professionals, our ability to integrate acquired assets in a cost effective and timely manner, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, the success of our brand development efforts, liability for damages on our service contracts, the success of the companies / entities in which we have made strategic investments, withdrawal of governmental fiscal incentives, political instability, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property, other risks, uncertainties and general economic conditions affecting our industry. There can be no assurance that the forward-looking statements made herein will prove to be accurate, and issuance of such forward looking statements should not be regarded as a representation by the Company or any other person that the objective and plans of the Company will be achieved. All forward-looking statements made herein are based on information presently available to the management of the Company and the Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

Q3 FY 2026 Highlights

1

Revenue

- INR Revenue of **₹33,872 Crores**, up **6.0% QoQ** & up **13.3% YoY**
- Constant Currency (CC) Revenue up **4.2% QoQ** & up **4.8% YoY**
- USD Revenue of **\$3,793M**, up **4.1% QoQ** & up **7.4% YoY**
- HCLTech Services CC Revenue up **1.8% QoQ** & up **5.0% YoY**
- Digital CC Revenue up **17.7% YoY**; contributes **43.2%** of Services
- **Advanced AI** Revenue at **\$146M**, up **19.9% QoQ CC**
- HCLSoftware CC Revenue up **3.1% YoY**
- HCLSoftware ARR at **\$1.07B**, up **0.6% YoY CC**

2

Profitability & Return Metrics*

- INR EBIT at **₹6,285 Crores** (18.6% of revenue), up **13.2% QoQ** & up **8.0% YoY**
- Q3 FY26 EBIT Margin includes 81 bps impact of restructuring cost
- NI at **₹4,795 Crores** (14.2% of revenue), up **13.2% QoQ** & up **4.5% YoY**
- ROIC (on LTM basis) – Company at 39.4%, up **277 bps YoY**; Services at 45.9%, up **117 bps YoY**
- FCF/NI at **120%** (on LTM basis)
- Dividend of **₹12/-** per share, 92nd consecutive quarter of dividend pay-out

3

Bookings

- TCV (New Deal wins) at **\$3,006M**, up **17.0% QoQ** & up **43.5% YoY**

4

People

- Total People Count at **226,379**; Net addition: **(261)**
- Added **2,852** freshers
- LTM Attrition at 12.4%, (down from **13.2%** in **Q3 of last year**)

5

ESG - Awards and Recognitions

- HCLTech awarded Gold certification by EcoVadis, placing us in the Top 4% of rated IT companies

6

FY26 Guidance

- Company Revenue growth expected to be between **4.0% - 4.5% YoY** in CC
- Services Revenue growth expected to be between **4.75% - 5.25% YoY** in CC
- EBIT margin to be between **17.0% - 18.0%***

* Excludes the one-time impact of New Labour Codes: ₹956 Crores (\$109M) at EBIT and ₹719 Crores (\$82M) at Net Income in Q3 FY26

Leadership Comments

Roshni Nadar Malhotra
Chairperson
HCLTech

“We have delivered another quarter of robust performance driven by the differentiated value we bring to our clients. AI continues to be a key growth driver across our portfolio, and we are sharpening our capabilities to leverage these emerging opportunities.”

C Vijayakumar
CEO & Managing Director
HCLTech

“Another standout quarter on all fronts, with revenue up 4.2% QoQ in constant currency along with a strong recovery of operating margin to 18.6%. The strong revenue momentum in the quarter has enabled us to cross \$15B in annualized revenues. Our new bookings were exceptionally high at \$3B. Our Services revenue grew 1.8% QoQ in constant currency, driven by 19.9% QoQ growth in Advanced AI services. HCL Software revenue grew sharply by 28.1% QoQ and 3.1% YoY in constant currency, driven by seasonality and data Intelligence portfolio. We are well positioned to address evolving AI demand of our clients across industries and service lines.”

Shiv Walia
Chief Financial Officer
HCLTech

“HCLTech delivered an impressive financial result with Q3 FY26 revenue of ₹33,872 Crores (up 6.0% QoQ and 13.3% YoY). Q3 EBIT margins, excluding the one-time impact of New Labour Codes, came in at 18.6% (up 111 bps QoQ). Our dedicated efforts to improve cash conversion has yielded in FCF/NI (LTM basis) remaining healthy at 120% and we ended the quarter with our highest ever cash balance of ₹34,306 Crores. LTM Return on Invested Capital (ROIC) continues to improve and stands at 39.4% for the company (up 277 bps YoY), 45.9% for Services (up 117 bps YoY) and at 23.1% for HCLSoftware (up 513 bps YoY).”

- Inter-segment revenue is related to products and services of HCLSoftware used by Services business in rendering services to their customers.
- Estimated effective tax rate for HCLSoftware segment has been arrived at by applying the tax on Specific units/entities from where HCLSoftware business operates. Residual tax has been allocated to Services business.
- Common assets and liabilities have been allocated between the businesses in ratio of last twelve months revenues.

HCLSoftware Metrics

HCLSoftware Revenue	Quarter Ended				
	31-Dec-24	31-Mar-25	30-Jun-25	30-Sep-25	31-Dec-25
Perpetual License Upfront & Others	49	34	29	24	55
Subscription & Support	329	295	282	290	351
Professional Services	21	19	19	19	20
Total Revenue	400	348	330	333	425

- **Perpetual License upfront and others** revenue includes upfront revenue recognized from perpetual licenses and compliance revenues.
- **Subscription and Support** revenue includes all term subscription revenues, support revenues (including those attributable to perpetual licenses) and Software-as-a-Service (SaaS) revenues.
- Revenue share from **IP Partnerships** is included in respective lines above based on the information provided by the partners.

HCLSoftware ARR	Quarter Ended				
	31-Dec-24	31-Mar-25	30-Jun-25	30-Sep-25	31-Dec-25
ARR	1,022	1,033	1,057	1,062	1,065
ARR Growth YoY CC	(0.6%)	1.8%	1.3%	0.6%	0.6%

Annual Recurring Revenue (ARR) is the annualized value of all term subscription licenses, support obligations (including those attributable to perpetual licenses) and Software-as-a-Service (SaaS) contracts that are active on the last day of the quarter. In respect of IP Partnerships, ARR is computed based on annualized value of HCL's revenue share of the revenue reported by the partners for support services and new license sales in the current quarter. ARR excludes upfront revenue recognized on sale of perpetual licenses, professional services and any other non-recurring revenue.

ARR is an operating metric, which should be viewed independently of revenue and is not a forecast of future revenues. Growth in ARR may not always be reflected in Revenue growth.

Key Deal Wins

HCLTech has won a **mega, five-year strategic engagement** with a leading **global apparel retailer** (Total Contract Value of **\$473 million**) to serve as its **long-term AI-led technology partner**. Under the agreement, HCLTech will modernize the client's applications and data landscape, leveraging its **Agentic AI Force 2.0** platform. The agreement extends beyond IT services to include collaboration on improving brand experiences while supporting evolving business needs of the client. Additionally, HCLTech will facilitate the transformation of client's current operating model, simplifying the technology organization and realigning teams around outcome-oriented functional domains. This engagement is designed to improve engineering productivity, modernize software engineering and data lifecycle management through advanced AI capabilities, and deliver enhanced digital platforms and product experiences.

A leading U.S.-based insurance company has chosen HCLTech as its strategic technology partner, consolidating services previously delivered across multiple providers. Powered by HCLTech's GenAI-led service transformation platform, AI Force, this partnership will help transform IT service delivery—enhancing engineering outcomes, accelerating time-to-market, and driving operational efficiency through automation across application development, support, testing and infrastructure.

A Europe-based global foods major selected HCLTech to design and implement a greenfield IT setup as part of the client's demerger, building an AI-powered digital home.

A global technology major selected HCLTech to manage its next-generation AI data centers featuring cutting-edge GPU stacks optimized for AI workloads. Leveraging an innovative outcome-based model, the client can dynamically scale workloads in alignment with evolving business priorities.

A U.S.-based technology leader has deepened its strategic partnership with HCLTech to accelerate digital engineering initiatives and enable enterprise-wide adoption of AI. The partnership also spans cloud, storage, data management and AI platform engineering, leveraging HCLTech's AI-driven product engineering expertise to optimize costs and improve time-to-market.

A Middle East-based financial services major selected HCLTech to transform its data centers, including the large mainframe estate, leveraging HCLTech's best-in-class AI capabilities along with industry-leading domain expertise to drive innovation, scalability and operational efficiencies and accelerate its digital transformation objectives.

A Europe-based global life sciences company selected HCLTech to modernize its digital and scientific platforms. HCLTech will leverage its AI Force platform along with deep domain expertise in life sciences to build a future-ready digital ecosystem that drives efficiency, fosters innovation and enables data-driven decision-making.

A U.S.-based technology company selected HCLTech to deliver Agentic AI transformation services globally. The program will leverage HCLTech's AI Labs for rapid prototyping, reusable accelerators and pre-configured Agents to accelerate industrialization. This engagement strengthens HCLTech's ecosystem partnership and positions the company to scale repeatable Agentic AI services across industries and geographies.

A U.S.-based utility has chosen HCLTech to implement SAP S/4HANA and unify its systems. As part of this transformation, HCLTech will deploy a comprehensive SAP S/4 suite to modernize how the client manages its electric and water infrastructure, oversees city budgeting, optimizes human capital, handles financial operations and ensures compliance with utility and municipal reporting requirements.

A U.S.-based technology company selected HCLTech to provide development and sustaining engineering services for its firewall and cloud security portfolio. Leveraging its AI Force platform along with deep expertise in the telecom domain, HCLTech will drive innovation, enhance scalability and deliver operational excellence to accelerate the client's digital transformation journey.

A U.S.-based global media and entertainment company has chosen HCLTech to manage and modernize its core SAP platforms, enhance the digital workplace and strengthen cybersecurity. Leveraging AI-enabled accelerators, HCLTech's solution will drive faster decision-making, boost employee productivity and deliver enterprise-grade security at scale.

Key Deal Wins

A U.S.-based media and entertainment major selected HCLTech to consolidate its entire enterprise applications portfolio. Building on its strong operational foundation, HCLTech will leverage its AI Force platform and the broader AI product suite to transform the client's current operations into a future-ready digital enterprise that is agile, cost-efficient, resilient and continuously innovative.

A Europe-based utility selected HCLTech to manage its end-to-end IT environment spanning applications, infrastructure, cloud and workplace. Leveraging next-generation offerings, including AI Force, HCLTech will drive innovation, enable hyperautomation, streamline operations and establish a scalable model aligned with the client's business objectives.

A U.S.-based electronics manufacturer selected HCLTech to transform its IT landscape across infrastructure, applications, security and digital workplace services. HCLTech will leverage its GenAI-led service transformation platform AI Force to drive efficiency, enhance user experience and standardize operations for the client globally.

An Asia-based global technology company partnered with HCLTech to bring next-generation connectivity solutions to telecom operators worldwide. HCLTech will leverage its deep expertise in product engineering and full-stack AI portfolio to accelerate innovation within the client's Mobile Virtual Network Enabler (MVNE) platform, while driving scalability and cost efficiency.

A Japan-based global telecom company selected HCLTech to migrate to its private and AWS cloud infrastructure. HCLTech will leverage its proprietary tools and intellectual property to streamline the migration, improving operational and maintenance efficiency while strengthening overall enterprise performance.

A Europe-based hi-tech company expanded its partnership with HCLTech to develop advanced chips for connected devices. HCLTech will leverage its global leadership in engineering services to accelerate the client's time-to-market and deliver secure, scalable products with optimized power consumption.

A Europe-based global medtech company selected HCLTech for end-to-end R&D sustenance engineering services. HCLTech will leverage its product engineering expertise and intelligent sustenance framework to enable the client to accelerate its innovation cycle.

HCLSoftware

A Europe-based technology company selected **HCL Unica Marketing Automation** and **HCL Domino** to enable real-time personalization and modernize application environments to accelerate its customers' transition to cloud-aligned digital experience technologies.

A Europe-based financial services company selected **HCL Unica**'s enterprise marketing automation and customer engagement platform to deliver personalized, secure and high-performance customer experiences at scale. HCL Unica enables the client to strengthen its digital engagement capabilities while ensuring resilience, data control and long-term continuity for its customer-facing operations.

An Australia-based energy utility selected **Actian Data Intelligence Platform** while increasing strategic use of **Actian's Ingres Database** and **OpenROAD** estate.

A European regulator selected **Actian's Ingres** and **OpenROAD** platforms, including the Actian Data Intelligence Platform, to govern safety and risk data consistently and to better predict and report safety outcomes.

A U.S.-based global food and beverage major selected the **HCL Workload Automation** platform to consolidate multiple environments, streamline operations and drive measurable cost efficiencies.

A Latin America-based retailer selected **HCL Commerce Cloud** to power its omni-channel growth strategy for both B2C and B2B while factoring in large catalogs, complex pricing and promotions and peak seasonal demands.

A Europe-based technology services provider selected **HCL Workload Automation** to offer secure, scalable and efficient digital banking services to its customers. The platform will be paired with **HCL UnO** to support the company's mainframe environment.

Exclusive AI Deals

A U.K.-based global mining major selected HCLTech to deploy **Physical AI (VisionX)** solution in its industrial inspection platform. The solution utilizes computer vision algorithms to automate defect detection, improve safety compliance and reduce manual inspections..

A Europe-based financial services group selected HCLTech to transform its Customer Contact Center operations through an **Agentic AI** solution on Microsoft Copilot Studio.

A global technology major selected HCLTech's **Physical AI (Kinetic AI)** solution to scale its lab operations and accelerate AI experimentation.

An Asia-based global financial services company will deploy **HCLTech's AI Force.Software** for software engineering development lifecycle and **AI Force.Ops** to transform its fragmented IT operations into a proactive, reliability-driven workflow.

A U.S.-based global media and entertainment company selected HCLTech to deliver GenAI-powered audit and compliance transformation for its multi-billion-dollar IP licensing business. The solution leverages HCLTech's **AI Foundry** to automate end-to-end licensee audit and product-approval workflows.

A global medical devices and biopharma enterprise partnered with HCLTech to eliminate knowledge silos, reduce support costs, and scale query handling. Using **AI Force** and Azure OpenAI, HCLTech delivered a centralized AI platform that enables instant, policy-compliant self-service answers, improving efficiency and reducing costs.

The client also selected HCLTech to develop a custom industry AI solution for audit trail review automation across regulated GxP systems. The solution will enable proactive detection of deviations, ensuring robust compliance with regulatory standards.

A U.S.-based global ancillary financial services company selected HCLTech to enhance accuracy, traceability and efficiency across its operations. HCLTech will deploy its **Physical AI (VisionX)** solution across inbound processing, sorting, teller operations, exceptions and dispatch to monitor critical checkpoints.

A U.K.-headquartered global pharmaceutical major selected HCLTech to transform its Edge and AI infrastructure by deploying HCLTech's **Physical AI** and **AI Factory** solutions across its labs and plants.

A U.S.-based beauty retailer selected HCLTech for its **AI Advisory** services to establish an enterprise-level AI strategy office.

A Europe-based cleaning equipment major selected HCLTech for a **Kinetic AI (Robotics)** solution to enable real-time monitoring, incident resolution, and performance optimization of its operations.

AI partnership updates

HCLTech featured as a key **Physical AI and Robotics partner** during **NVIDIA's CEO & Founder's keynote** at CES 2026, reinforcing the strategic depth of our collaboration in Physical AI.

Launched Physical AI Innovation Lab in collaboration with NVIDIA

- Recognized as a '**Frontier Firm**' by Microsoft, acknowledging our leadership in enterprise AI adoption and strength of our Advanced AI portfolio
- Collaborated with **SAP** on Physical AI to advance Physical AI solutions that integrate intelligence into real-world operations across industries
- Expanded partnership with **AWS** to accelerate Financial Services industry transformation with AI and Core Modernization
- Joined **Microsoft** Discovery Platform to accelerate research innovation
- Achieved the **Microsoft** Copilot Specialization, becoming one of the first Global System Integrators (GSIs) to earn this recognition
- Partnered with **Strategy Inc** to advance data analytics at scale with AI-driven solutions
- HCLTech was a Finalist in the Responsible AI Institute (RAII) Leadership in Responsible AI Awards
- Joined **AI Verify Foundation** to advance Responsible AI

Supercharging progress for our communities and the planet

India-focused initiatives through HCLFoundation

- 45,000+ patients given consultations
- 55 kW solar PV systems installed at five primary health centers in Thoothukudi, Tamil Nadu
- 14,000+ households covered through a new material recovery facility of 5 tons per day capacity

Sports for Change: Scholarships to six budding para-athletes, equipment to 14 elite para-athletes provided

A decade of HCLTech Grant celebrated with partner organizations, esteemed guests and jury

- 22,000+ students supported in their STEM preparations
- 13,000+ people screened for non-communicable diseases
- Yuvakendra launched in Bengaluru to train 200 youth in e-taxi driving

- 73 acres of waterbodies conserved; 12 acres rejuvenated
- 19,750+ native saplings planted, engaging over 1,100 volunteers
- 11,500+ kgs of ghost nets and marine debris retrieved

- 6,500+ households and 1,475 RWAs trained on waste segregation
- 1,100+ kgs of dry waste collected and sent for recycling
- 36,200+ liters of water sludge removed by HomoSEP robot

MoU signed with National Crafts Museum and Hastkala Academy to support skill development of artisans across India

18,300+ hours of community volunteering activities by 4,000+ HCLTechies

Relief and rescue operations undertaken in collaboration with government departments and civil society during flash flood in Jammu

Global initiatives

HCLTech employees in New Jersey donated food items to support Feeding America's food security efforts

15,000 saplings planted in Teleorman County, Romania
